## PROJECTS

### Bloglist

[Github](#) | [Live](#)

A blog listing application with user management built using NodeJS, ReactJS, MongoDB, ReduxJS, and ExpressJS. It shows knowledge of User Authentication, Routing, Unit testing, End to End Testing, State Management and Production Pipelines

### Library

[Github](#) | [Live](#)

A library application built using NodeJS, ReactJS, MongoDB, Apollo GraphQL, and ExpressJS. It shows knowledge of Apollo GraphQL Queries, Mutations, Subscriptions, Fragments, and Error Handling. This application also outlines User Authentication, State Management, and Production Pipelines.

### Rate Repo App

[Github](#)

A mobile application for rating Github repositories built using NodeJS, React Native, GraphQL, Apollo Client, and Expo. This application outlines knowledge of Mobile Development, User Authentication, Unit Testing, Form Validation, State Management, and Infinite Scrolling.

### Patientor

[Github](#) | [Live](#)

Healthcare application built using NodeJS, ReactJS, Typescript, and ExpressJS. It shows knowledge of Typescript features such as Types, Enums, and Interfaces. This application also outlines Form Validation, Proofing Express Requests, State Management and CI/CD Pipelines.

## EXPERIENCE

### Inside Sales / Parts

Pacific Coast Fire Equipment | 2020 - Present

- Sourced, ordered, and gathered items for jobs based on quotes, estimates, and customer requests.
- Oversaw inventory and servicing of products related to Fire Protection
- Handled sales of customer accounts of varying levels in price and importance
- Managed shipping and receiving of orders from vendors and orders to customers
- Took part in assisting installation and inspection of Fire Protection products on multiple job sites and locations

### Independent Tile Contractor

Self Employed | 2013 - 2020

- Advertised to clients and negotiated scope of work via estimates and quotes
- Managed material and site availability dates outlined in scope of work to meet with customer deadlines and expectations
- Met specifications of engineered drawings and communicated layouts and details with designers and architects
- Installation of concrete subflooring, membranes, waterproofing, terrazzo, ceramic, slate, marble, grout, and epoxy at multiple locations in Canada

## SKILLS

### Frontend

JavaScript	React
HTML / CSS	TypeScript
React Native	Gatsby
Apollo	ReduxJS

### Backend

NodeJS	TypeScript
ExpressJS	MongoDB
GraphQL	Sequelize

### Testing & CI / CD

Jest	Cypress
Github Actions	MongoDB
GraphQL	

### Cloud

Digital Ocean	Heroku
---------------	--------

## EDUCATION

[Georgia Tech / EDX](#)  
[Introduction to Python](#)  
[Programming](#)

Fundamentals and Procedural Programming, Control Structures, Data Structures, Objects & Algorithms

[University of Helsinki Full](#)  
[Stack Open 2020 \(Certificates\)](#)

Fundamentals of Web Apps, Introduction to React, Communicating With the Server, Programming a Server with NodeJS and Express, Testing Express Servers, User Administration, Testing React Apps, State Management with Redux, React Router, Custom Hooks, Styling Apps with CSS and Webpack, GraphQL, TypeScript, React Native, CI / CD
